RestoZign
Restaurant Website Design

Website Project Onboarding Checklist

Everything we need from you to design, build, and launch your new website — in one place.

STEP 1 — BOOK YOUR KICKOFF CALL

- [ ] **Book your kickoff call**
  Use the booking link on your thank-you page (restozign.com/thank-you) or in your welcome email. On the call we confirm your goals, your pages, and your timeline.

STEP 2 — COMPLETE YOUR PROJECT INTAKE

- [ ] **Fill in the intake form**
  restozign.com/black-friday-deal — your business, your services, your design and layout preferences, and anything you do NOT want on the site.
- [ ] **Your logo**
  The highest-quality file you have (vector or large PNG preferred). No logo yet? Tell us in the intake — brand colors and photos can follow.
- [ ] **Photos**
  Your business, your team, your food or your work — the more real photos, the better your site looks. Phone photos are fine.
- [ ] **Business details**
  Hours, address, phone, email for inquiries, and your menu or services list with prices where you want them shown.
- [ ] **Links & integrations**
  Ordering, reservations, social profiles, and anything else your site should connect to.

STEP 3 — WHAT HAPPENS NEXT

- [ ] **Design & build**
  We design your homepage and key pages, then build out the full site — a typical window is 7–10 days after your kickoff call and complete assets.
- [ ] **Review**
  You receive one organized preview. Collect any changes into a single round and send them back in one list.
- [ ] **Launch**
  We apply your changes, run final checks, and launch. Add-ons (Ads & Lead Flow, AI Receptionist) switch on right after launch.
